IRIS Lovers— I Offer You Costly Importations, and Rare Introductions, Originally Sold for \$5.00 to \$75.00 a Plant at Nominal Prices—as Low as 15¢ a Plant

EVERY Iris offered in this folder originally sold at from \$5.00 to \$75.00 a plant. The introducer told me he paid the originator \$5,000 for his original stock of Mother of Pearl. I now offer you plants of equal quality, propagated from this original stock, at 20c.

I paid the originator \$50.00 a plant for Mrs. Marion Cran. I now offer you large, flowering size plants of this variety at 25c a plant.

Only a few years ago Pioneer was selling at \$35.00 a plant. You can order it from this list for 15c a plant, LESS THAN ONE-HALF CENT ON THE DOLLAR OF THE ORIGINAL COST.

These are only a few of the amazing values offered here. In fact, I have totaled the cost of the entire list, first at former prices, and then at my present prices to you, and I find that YOU CAN NOW PURCHASE FOR \$25.00 SEVENTY-FIVE OF THE WORLD'S FINEST TALL BEARDED IRIS, WHICH FORMERLY SOLD FOR \$1,748.00.

You will find in this list several of the famous Dykes Medal Winners. Only one Iris each year can receive this, the world's highest honor, in America, England and France.

I have invested a comfortable fortune in rare importations and introductions. These I have propagated and multiplied with the most meticulous care until I can now offer them to you at nominal prices.

The plants I will send you will be just as large and will produce just as beautiful flowers as the originals for which I paid fabulous prices. They will be identical in every way to the original stock which cost me a small fortune. This is my contribution to the progress of the gardening world.

I CHEERFULLY PAID DOLLARS A PLANT FOR MY ORIGINAL STOCKS OF THESE SUPERB VARIETIES. WILL YOU PAY PENNIES IN ORDER THAT YOU AND YOURS MAY ENJOY THEIR BEAUTY?

Superb Peony Collection

Beautiful for Cutting and Display

The single Peonies always attract a great deal of attention. The flowers are very large, borne singly or in clusters, in great profusion. There is usually a single row of petals with a center of golden stamens that is most pleasing. For landscape effect or for specimen clumps they cannot be equalled. They stand heat and rain and have a habit of closing in the cool of the evening, to open again the next day. These lovely single Peonies are quite rare. This collection will consist of a magnificent white, a velvety deep garnet-red, and a lovely shell-pink.

All Three for \$2.25, Postpaid

Japanese Peony Collection Semi-Double, Extremely Handsome

This class of little known Peonies is still very rare. They are somewhat like the singles but more developed, the center stamens of the singles having developed in the Japanese types into narrow petaloids with traces of the yellow of the stamens showing in these petaloids, which are surrounded by one or more rows of guard petals. They are extremely handsome.
